Dear «Member_First_Name» «Member_Last_Name»,

We are contacting you on behalf of your prescription drug plan, whose records with us indicate that you received a prescription for «Label_Name». This medication has been voluntarily recalled by the manufacturer because the product may have a safety concern.

Drug Recalled: «Label_Name».

NDC Impacted: «NDC_11_Digits»

Reason for Recall: The United States (US) Food and Drug Administration (FDA) is warning consumers and healthcare professionals about a voluntary recall of one lot of montelukast sodium tablets – lot number MON17384, expiration 12/31/2019 – by Camber Pharmaceuticals, Inc., Piscataway, N.J. Sealed bottles labeled as montelukast sodium tablets, 10 milligram, 30-count bottle from Camber were found to instead contain 90 tablets of losartan potassium tablets, 50 mg.

This tablet mix-up may pose a safety risk as taking losartan tablets when not prescribed has the potential to cause renal dysfunction, elevated potassium levels and low blood pressure. This risk is especially high for pregnant women taking the allergy and asthma medication montelukast because losartan, which is indicated to treat high blood pressure, could harm or kill the fetus. The FDA recommends that consumers who have this recalled product should contact their healthcare provider or pharmacist immediately.

If you have health concerns and/or questions regarding your use of «Label_Name» please contact your physician or pharmacist.

For more information regarding this FDA Recall Notification, please be referred to the FDA website:
https://www.fda.gov/NewsEvents/Newsroom/PressAnnouncements/UCM613532.htm?utm_campaign=Untitled%20Email&utm_medium=email&utm_source=Eloqua

FDA contact information for reporting adverse events/quality complaints online at
<https://www.accessdata.fda.gov/scripts/medwatch/index.cfm?action=reporting.home> or call the FDA
at 1-800-FDA-1088
